▶ PP 40x and PP 80x family fact and figures.

Heavy duty 24 pin print head technology

600 - 1000 character per second (cps)

500 - 800 pages per hour (pph)

up to 50.000 pages per month

high resolution graphis and barcodes

▶ Typical application enviroment

All kind of logistics

Automotive and suppliers

Industriel manufacturing

Services and trading

Innovations and Quality - Made in Germany

Since 1992, the PSi Group successfully markets professional dot matrix and laser printers for printing onto cut sheets, form sets and fanfold paper. The products are designed and produced at the premises in Freudenberg, certified according to ISO 9000.

Experienced staffs build the printers in a modern production facility and let the product excel with regard to quality and reliability „Made in Germany".

Thus numerous of national and international successful companies in industry, logistics, retail, services and IT rely on the modern printing technology of PSi Matrix GmbH.

PP 40x and PP 80x family

PSi Matrix

Next Generation IPDS Ethernet Connectivity
with PP 40x and PP 80x

IBM iSeries
IBM AS400

EMULATIONS

IPDS (IBM 4247compatible)
SCS (3268, 4212, 3287 compatible)
DCA (IBM 3812, 5219, 5226, 4234 compatible)
ASCII datastreams

PROTOCOLLS

TCP/IP (PPD, LPR, Port 9100)
Netbios, Netbeui, FTP
Internet printing protocol

FEATURES

Multisession / multiprotocol
Data stream manipulation
adition of pre and post strings

SET UP

Managment via Web browser
Auto - configuration
Status reporting via Email

IBM 4247 compatible
